Roy Hobbs, Kancho, Founder of the Sekai Dentokan Bugei Renmei and Menkyo Kaiden in the Hakko-ryu/Kokodo Jujutsu lineage of Jujutsu, will be returning to Shindokan Dojo for a weekend course in Dentokan Aiki Jujutsu, a Japan-recognized branch of Hakko-ryu Jujutsu. Descended from Daito-ryu Aikijujutsu, Dentokan Aiki Jujutsu is a complete art of self protection and includes joint locks; immobilizations; chokes and strangulations; strikes; throws; and subtle physical manipulation and mental disruption. It is noted for very relaxed and "soft," yet extremely effective execution of technique to neutralize an attack. The humanitarian approach to self-defense also makes Dentokan Aikijujutsu an excellent art for law enforcement and personal protection professionals. Hobbs Sensei, a very highly ranked and teacher of Aiki Jujutsu, Karate-do (Shorin-ryu and Goju-ryu) and Kobudo, studied Hakko-ryu directly with the Founder, Ryuho Okuyama, Shodai Soke (receiving his Shihan license from him) as well as Yasuhiro Irie, Soke, from whom he received Menyo Kaiden (full transmission) in Kokodo Jujutsu, Irie Sensei's branch of Hakko-ryu. Sensei, who holds the title of Hanshi in Okinawan Karate-do, will also be teaching a special session in the kata & bunkai of Goju-ryu Karate-do. Hobbs Sensei is an exemplary instructor and gentleman with an engaging personality and a knack for story-telling! We are sure that you will enjoy your time with him!
